

R E M A R K S

The present amendment is in response to the Official Action dated March 21, 2007, made FINAL, wherein the Examiner rejected pending claim 11. More specifically, the Examiner continues to reject claim as being unpatentable over Alpert, US Patent No. 5,742,666, in view of Ebata et al., US Patent No. 6,487,542. The Examiner notes with appreciation the Examiner's indication that all of the other claims, namely claims 1, 2, 4-10, 12-24, and 26-30 are allowed. In response to the remaining rejection of claim 11, and in order to enable the allowed claims to proceed to allowance, the applicant has canceled claim 11, thereby making the continued rejection of the same moot. In absence of any further rejection of the claims, the application is believed to be in condition for allowance. Correspondingly, allowance of the application is respectfully requested.

Respectfully submitted,

BY: /Lawrence Chapa/
